ABOUT ME

▶ Watch my work ↗

I'm a video editor and motion designer working fully in **DaVinci Resolve Studio**. I started editing professionally in 2026 and I take every project seriously, from short reels to long-form videos: tight pacing that holds attention, clean Arabic and English captions, motion graphics built in **Fusion**, and color that makes people and brands look their best. I also design and sell my own plugins for DaVinci Resolve Studio under the **AT Creative** brand, so I know the software well beyond the basics.

EXPERIENCE

Freelance Video Editor & Motion Designer

2026 – Present

Remote · Brands, clinics & content creators

- Edit vertical reels, long-form videos and talking-head content for brands and healthcare businesses, including **MedTrade** (hearing care centre) and **Wifada**.
- Build motion graphics B-roll, kinetic numbers and animated Arabic captions in **DaVinci Resolve Studio Fusion**.
- Color grade every edit for a clean, cinematic look with natural skin tones.
- Handle music sync, sound design and pacing for Instagram Reels, TikTok, YouTube Shorts and long-form YouTube videos, with 9:16 and 16:9 exports.

Founder & Plugin Developer

2026 – Present

AT Creative · Tools for DaVinci Resolve Studio

- Design and sell my own DaVinci Resolve Studio plugins on Payhip, for Windows and Mac.
- Run the AT Creative website and Discord community for editors.

SELECTED PROJECTS

Wifada · Brand Reels
Talking-head reels with Arabic captions, kinetic numbers, light effects and an illustrated animation break.

Pediatric Doctor Reel
Healthcare reel with animated Arabic captions, sound design and clean, natural color.

BMW · Speed Ramping Edit
Fast-paced car edit with speed ramping, beat sync and a punchy color grade.

Motion Graphics Promos
"Looking for a Video Editor?" promo and an Instagram UI animation, built in Fusion.
